Why focus on regions?

- Translate big goals into action
- Engage the broader higher education ecosystem
- Institutions have asked for guidance about their contributions
- Regions and institutions differ in many ways
- Shared state, regional, and institutional responsibility for student success

2

THECB proposes a two-step process for developing regional targets

STEP 1: THECB develops preliminary regional targets in three areas:

1. 60x30 Educated Population Goal
2. Completion Goal of 550,000 CABMs
3. 65% High School-to-Higher Education Direct Enrollment

STEP 2: Regions bring together institutions and other stakeholders to:

- Identify at least one powerful strategy for each of the three areas
- Set numeric targets by institution for completion

THECB is developing a starter kit to support regional efforts

- Regional target submission form
- Regional context and data workbook
- Sample regional strategies that are relevant, high-impact, and large-scale
- Suggested stakeholders
- Guidance for collaboration and negotiation

Regional data contextualizes planning
